

RELEASE OF SUBSCRIBER NUMBERS FOR THE QUARTER ENDED 30 SEPTEMBER 2007

MTN Group recorded 54,162,000 subscribers at 30 September 2007. This was a 12% increase from 48,346,000 subscribers recorded at 30 June 2007.

The attached analysis is presented on a regional basis. The South and East Africa (SEA) region contributed 33% (June 2007: 35%) of the Group total subscribers and West and Central Africa (WECA) and Middle East and North Africa (MENA) regions were 47% (June 2007: 48%) and 20% (June 2007: 17%) respectively.

The SEA region increased its subscriber base by 5% for the quarter. The South African operation contributed 52% to the regions growth, with subscribers increasing 3% for the quarter ended 30 September 2007. There has been a restatement of the South African subscribers and ARPU which now reflects MTN's consolidated South African operation. The restated history is available on the MTN Group investor relations website. Subscribers in Uganda increased 12% to 2,094,000 subscribers over the same period due to more competitive pricing.

The WECA region increased its subscriber base by 9% for the quarter. Nigeria contributed 47% to the region's growth recording a 7% increase in subscribers to 14,985,000. An aggressive network rollout plan is addressing the quality and capacity issues following the high rate of subscriber acquisitions since the last quarter of 2006. Ghana increased its subscriber base by 14% to 3,872,000 underpinned by strong operational execution of the network rollout, while Cameroon increased subscribers by 15% to 2,238,000 due to increased marketing activities.

The MENA region recorded a 36% increase in subscribers for the quarter mainly due to strong growth from start-up operations in Iran, which increased subscribers by 88% to 3,720,000. There was also continued strong growth in Afghanistan (66%), Sudan (24%) and Syria (12%).

MTN South Africa's ARPU increased, on a comparable basis by 1% to R146. Nigerian and Ghanaian ARPU's remained strong at \$17 and \$16 respectively.

Subscribers are customers who have participated in a revenue generating activity in the last 90 days. ARPU is the average revenue per subscriber calculated on a monthly basis (includes interconnect fees and excludes connection fees, where these are material, and visitor roaming revenue).

* South Africa now includes community service payphones into pre-paid and application providers into post-paid. Prior periods have been adjusted for comparative purposes.
