Diversity and inclusion

Both global and MTN's trends suggest a strong correlation and impact of diversity on sustainable engagement and business growth. Diversity and inclusion sits at the heart of our identity and organisational culture, we strive to be the most inclusive and successful organisation across Africa and the Middle East, putting diversity and inclusion into action to help employees, customers and communities thrive.

The following initiatives embodied our progress towards higher levels of diversity and inclusion across the group:

- Global diversity and inclusion philosophy: We established our position and commitment to diversity and inclusion as core to our identity and purpose.
- Global diversity and inclusion wireframe: We developed a global diversity and inclusion wireframe which includes principles, a framework, tactical programmes and group interventions to support diversity and inclusion.
- Global diversity and inclusion forum launch: We set up our group diversity and inclusion committee and global forum to drive strategy and execution across our diverse footprint. In addition, localised committees were established in several countries to champion and deliberately focus on diversity and inclusion in the context of geography.
- Diversity and inclusion success measurement: We redefined how we intend to measure success in diversity, inclusion across the group and various quantitative parameters.

Key principles of our diversity and inclusion

- We have deliberately widened our diversity outlook to consider gender, generation, thought, race, ethnicity, abilities, personalities, sexual orientation, age and religion. We recognise that diversity needs serious actionable targets, while inclusion needs mindful, conscious behaviours and strong championing.
- MTN is a signatory to the UN Global Compact, which includes the promotion of equality and the prevention of unfair discrimination. The employee conduct pledge, a part of each employee's contract of employment, requires employees to respect age, colleagues, suppliers and those we serve, regardless of gender, race, religion, culture, mental and physical abilities, sexual orientation, disability, nationality and to treat them with dignity, respect and compassion.

Diverse nationality and ethnicities

- We operate in 21 countries in Africa and the Middle East and as a result we are naturally diverse. Our people represent more than 58 nationalities, multiple ethnicities and four generations adding to our rich diversity. We are supportive and encouraged by the youth which constitute 55% of our global workforce with 14% in management.

Women equality and diversity
